

Transformational Presentations Coaching

Overview

Transformational Presentations Coaching uses a combination of two methods: **Co-Active Coaching®**, which more fully brings out what is already within a leader, and **Consulting**, which offers effective new strategies for creating stronger, more influential presentations.

“Coaching is a powerful way of getting from where you are... to where you want to be”.

Past Client

This highly experiential process focuses on reducing distracting verbal and visual behaviors while teaching a presentation structure that engages all members of your target audience.

Video recordings clearly highlight unconscious habits which sabotage your effectiveness in critical presentations. Coaching, feedback and guided practice turn your old behaviors into new practices which enhance your message.
